

Excel Reporter

Excel Reports for Process and Equipment data

Excel Reporter transforms Microsoft Excel into a reporting tool for your process and equipment data. Sample reports make getting started a snap. Easily create production, quality and performance reports. Connect to any real-time or historical data source via OPC.

Excel Reporter is an out-of-the-box solution that is easy to set-up, configure and manage - get up and running in less than 5 minutes.

Access All Your Data

OPC provides the most popular access method for industrial automation data. With both OPC DA and OPC HDA access, you can access data for multiple systems, without relying on custom tools for each device. Compare data from separate lines, units, or plants, all in a single tool.

No Historian, no problem!

Are you manually reporting on data from your PLC? Eliminate errors caused by manual entry and automate it with Excel Reporter.

Easily Share Your Reports

Excel Reporter can be installed on a single machine, and generate scheduled reports that can be delivered by web or network share to anyone with Excel – making it easy to keep everyone up to date on the latest information.

Multiple users can access excel reports.

Simple to use

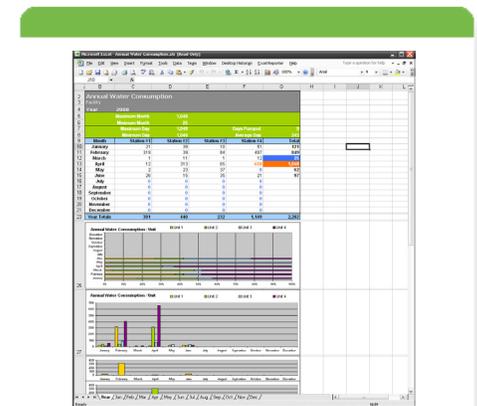

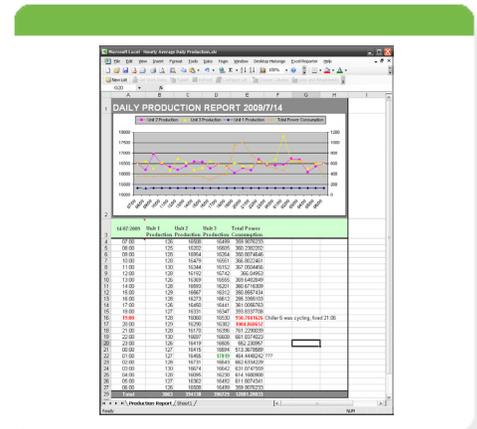

- Office 2003 and 2007 and **2010 (New!)** compatible
- Easily compare data from different time ranges
- Create scheduled or adhoc reports easily
- Connect to multiple datasources including popular PLC's, DCS's and Historians

Advanced Features

- Relative-time date format
- Uses excel formulas
- Compatible with VBA
- Flexible templating
- Use cell references
- Security signed for high-security environments
- Filter results from the data source
- Supports millisecond queries
- Pull processed and raw data
- Array Value Support

Supported OPC Specifications

- OPC DA (OPC Data Access) 1.0a
- OPC DA (OPC Data Access) 2.05a
- OPC DA (OPC Data Access) 3.0
- OPC HDA (OPC Historical Data Access) 1.2
